Wetaskiwin Exhibition August 28th and 29th

Promises To Be Best Fair Ever Held. Will Be One of
Biggest Stock Exhibits in Province. Good
Racing Program.

Remember the dates of Wetaskiwin's Sixteenth Annual Agricultural Fair and Race Meet are Friday and Saturday, August 28th and 29th. Committees now have the matter well in hand and the public can rest assured that when the time comes Wetaskiwin's fair will offer two big days of education and pleasure. The stock men are now preparing for the exhibits, and no doubt the exhibits of all kinds of live stock will far surpass any previous year, which is saying a good deal, as we are credited with having one of the best stock exhibitions in the entire province.

A number of changes have been made in the prize list, and a large number of additional classes have been added. If you have not already received a copy of the list through the mail, you should procure a copy from the secretary—H. E. Cutler—at once. More special prizes are offered this year than ever before. One of the features of the exhibition will be the showing of live stock by the pupils of the public schools of the city. This work won a number of prizes at Calgary in competition with the entire province.

Entries for all the events close on August 25, but the secretary, H. E. Cutler, hopes that the exhibitors will be considerate enough to make the entries as early as possible, as there is a great deal of work in completing the books in preparation for the judges. The department of agriculture has again consented to furnish government judges for all live stock and the judging is always done in the open, so that all interested may profit thereby.

What we need now, more than all else, is a direct co-operation of the community. We desire to make this fair the best we have had. Let everyone think it over at once and decide on making some entries, either in mind if you don't win—everybody can't—but make a showing of what you have anyway. That will give us a good exhibit, and there should be some satisfaction in helping to make a good exhibit. We all believe that we have the best district in the west but let us prove it by showing what we can produce here. Then, of course there is the comparative and educational value, which cannot be estimated and is not half appreciated, even by those who take part.

Everyone may rest assured that the committee will do their part in providing a good line of attractions, and naturally, these will be patronized by everybody, but let us remember that the showing of the exhibits is where the fair possesses the greatest value, and through which the great education and help is to be derived. Among the many attractive features of the exhibition will be the horse racing, the program of which is as follows:

FIRST DAY

Five Furlongs dash, Purse \$150.00.
Half mile dash, best 2 in 3 heats, Purse \$150.00.
Six furlongs dash, Purse \$150.00.
Farmers' team walk, 1/4 mile, horses 1000 or over, hitched to wagon, 1st \$10.00, second \$5.00.
Indian races.

SECOND DAY

Free for all, trot or pace, Purse \$200.00.
Five furlongs dash, Purse \$150.00.
One mile novelty race, Purse \$200.00.
Boys' Pony race, Purse \$25.00.
Farmers' turnout and hitching contest, team and heavy wagon, horses to be hitched and unhitched in front of grand stand; quality of horses and general appearance of appointments to be considered, 1st, \$10.00, second \$5.00.
Ladies Driving contest, single or double, 1st \$10.00, second \$5.00.
Let everybody get out, and look for the Wetaskiwin Fair this year, and remember the dates—Friday and Saturday, August 28 and 29.
Mr. Williams, one of the most eminent geologists now exploring the province with a view to ascertaining the possibilities of oil in the various districts, was in the city on Tuesday. He is going over the Wetaskiwin district in the interests of Calgary companies.

METHODIST CHURCH TENNIS CLUB SCHEDULE

The following is the schedule of the games to be played next week:
Monday, August 3.—
7 to 8—Court 1—Mr. Wright and Miss Emma Jordan vs. Mr. Compton and Miss O'Brien.

Court 2—Mr. English and Miss Knight vs. Mr. Golden and Miss Timlick.

Court 3—Mr. Wright and Miss Jordan vs. Mr. Woodcock and Miss McFarlane.

Town Topics

S. A. Grabn left last week for Macleod, where he has secured a position on the staff of the Spectator.

Mrs. Queber and daughter were at the Capital last week attending the funeral of the late Rev. Mr. Knudson who was a personal friend.

Miss P. Jenkins, recently of London, Eng., was in the city last week visiting at the home of her brother, E. R. Jenkins, of the telephone department.

Miss Buckley, formerly teacher of the Rosedale school district, has been engaged by the trustees of the Lucas school district as pedagogist for the ensuing term.

Miss Alma Mattson and Miss Agnes Mattson are now at Camrose taking charge of the post office for R. L. Rushton, who was recently appointed to the position of postmaster.

Miss L. Hinchberger left a few days ago to spend a brief vacation at Gull Lake. She expects to return the latter part of next week and will resume her duties as dressmaker.

W. J. Carlson, of the Imperial Bank of Canada staff, left for North Battleford, where he will take up the duties of lodge keeper, succeeding a young man who was drowned last week.

Dr. Smith, of the West China Methodist Mission, spent a short time at the Methodist apartment on Tuesday evening, when he addressed the Chinese to see his wife, who is obliged to undergo an operation in Toronto.

Wilberforce Rogers, of Lloydminster was in the city this week visiting at the Methodist parsonage.

Farmers and other requiring the services of boys could in all probability get good boys for the harvest season or for permanent work by applying to the Superintendent of Selected Children, Old Parliament Building, Edmonton.

An advertisement of the house must be sent with each application.

An event of particular interest to the sporting element of the city will take place at the agricultural grounds on the evening of August 1st.

Jack Huber and Mr. Murphy will meet in a matched running race of 50 yards and 100 yards. These men met at Strome a few days ago, and Murphy won in the 100 yards event in ten seconds. There will be other events the same evening.

There passed away at the home of her mother, Mrs. A. M. Peterson, July 27, Esther L. Peterson, at the age of 30 years. She was a native Swedish being in attendance to pay their last tribute of respect to the departed.

The O.P.R. park at the depot is looking better and goes to show what can be done in the Wetaskiwin district when a little care and attention is given to the work. Although Wetaskiwin is considered one of the prettiest towns in the west, yet there are several places which would be greatly beautified by additional landscaping and flowers.

The results of the regular May examinations of law students in the province were announced last week. In the list appears the name of Erick F. Murphy, B.A., (in the office of Odell & Russell, B.A.), of Camrose, passed the second intermediate.

The name of W. T. Fowler (with Loggie & Manley) also appears in the second intermediate list, but will be required to write a supplemental on statutes and practice. We extend our congratulations.

At a meeting of the public school board held recently, it was decided to endeavor to dispense with the services of one of the teachers at the commencement of the fall term, and with this object in view, Miss Helen Hale was engaged to fill the vacancies caused by the resignations of Miss Butler and Miss O'Brien. It was not expected that the attendance at the school will be less than the past term, but the rooms will be re-organized. Miss Munro, B.A., of Calgary, has been engaged as music instructor, as successor to Miss Smith.

Another very interesting liquor case was arraigned before A. S. Rosenfeld, justice of the peace, on Thursday last, when the case of the plain clothes man of the attorney-general's department was charged with inciting a man to violate the liquor license ordinance, and thereby becoming guilty of selling liquor without a license. This case arose out of the case heard against Frank Mathison a few days before when it was found guilty of selling liquor to Wylie and Morris, and was fined \$100 and costs. Evidence was given by Mathison, C. Shantz, J. E. Wylie and three others. After considering the evidence without costs, Watt was acted for by the prosecuting W. H. Odell, crown prosecutor, acted on behalf of the attorney-general's department.

Town Topics

H. W. Nesbitt, who has been spending a week at Gull Lake, returned to the city on Wednesday evening.

A number of Wetaskiwinites spent the week-end with friends who are camping at Pigeon Lake.

Miss Munro, of Calgary, arrived in the city today to spend a few days with her friend, Mrs. Dr. Stevenson.

Mrs. Key of Grouard was in the city last week visiting her sister, Mrs. W. F. Hook and other friends.

Mrs. Armitage, of Edmonton, arrived in the city on Tuesday evening to spend a few days at the home of her daughter, Mrs. W. F. Hook.

Mrs. F. B. Watson left last week to spend a few weeks visiting at the home of her parents, Col. and Mrs. Gregory, at Lacombe.

Mrs. A. R. Dickson and family left on Thursday morning for Vancouver, and other places at the coast, where they will visit relatives and friends.

Wilford Forbes, of the Dominion Lands Office, Calgary, is in the city this week renewing the acquaintance of his host of friends. Mr. and Mrs. Forbes are holidaying at Gull Lake.

The friends of Mr. and Mrs. Richards are pleased to learn that their son, Cecil, who has been seriously ill with fever for some time, is now convalescing nicely.

A. C. Crosby, M.A., returned home on Saturday morning after a long examination paper in Edmonton, since the closing of the school term. He expects the results of the examinations will be announced this week.

Reginald Wilkins and Miss Wilkins, who have been spending a few days at Gull Lake, returned home on Tuesday evening. Mrs. Wilkins and the remainder of the family will return next week.

Chester Niles, traveler for the Wetaskiwin & Spirit Co., Limited, expects to leave in a few days on an extended trip to Ontario, visiting Toronto, St. Catharines and other places.

All Oddfellows in the city are requested to be at the lodge on Monday evening next. Among the business to be transacted is the conferring of the initiatory degree on two candidates.

A quiet wedding took place at the residence of Mr. and Mrs. Lorne St. on Wednesday last week, when Mr. Forbes Finlayson, and Miss Lorne Gair, both of Kilmarnock, were united in holy matrimony. The ceremony was performed by Rev. Mr. Hamilton.

The International Supply Company have at last received all the material for the work of drilling the gas wells at the oil fields near the city. The drilling operations commenced today. The citizens hope that no mishap will occur, and that the company will make a new this record the making of the well.

It is the intention of the council to have two gas wells sunk this year, and the gas piped to the power house and other public buildings before winter sets in, no further delays can be permitted.

A number of Wetaskiwinites who went to the Camrose sports on Tuesday last, were disappointed to find the foot of the Camrose. One of Angus' cars broke down and the occupants did not reach their destination until late in the evening. He had a difficulty in winning the highest honors, as he secured 95.5 out of a possible hundred. Four hundred have been entered in the contest, and out of this number 300 were examined by Dr. A. Allen Nichols and his committee of doctors.

That defect in children, which their parents had not suspected were brought to light, thus giving an opportunity for their correction before it is too late; and, second, that public attention had been drawn to the importance of giving careful attention to the development of the race.

European War Threatened

Russia, Austria, Serbia, Germany and France Mobilize Troops. British Fleet Is Also Preparing.

London, July 29.—The Austro-Hungarian government declared war against Serbia today by a manifesto which is one of the briefest documents in history.

Germany paved the way for this declaration by announcing her rejection of the British scheme to bring four powers together in conference for mediation. Germany explained to the public that her ally could not be expected to submit her acts to an international council, as if she were one of the Balkan states.

The action preceded the declaration of war by only two hours, and gave an exhibition of the perfectly harmonious working of the partnership between the two nations which stood united together through the Bosnian crisis of 1908.

The centre of interest has shifted sharply to St. Petersburg, which holds the decision whether a European war, which probably would alter the balance of power, if not rearrange the entire map of Europe, is to break out. Negotiations are on foot there between the Russian foreign minister, Sergius Sazonov, and the Austrian ambassador, which are designed to "localize" the conflict.

There is no doubt in British minds that Austria had fully resolved to utilize the provocation afforded by the Sarajevo murders to wipe the slate clean against Serbia, and served an ultimatum on her which was regarded as having no room for maneuver.

There is absolutely no enthusiasm for England in war—no desire for this particular war, which confronts the British, yet there is a general belief that her obligations to her partners in the triple entente, as well as her interests as a great European power, will force her to support Russia and France in any steps they may take.

The dark developments of the day were received without excitement but with the deepest gloom. The immediate effect of the war "cloud" is likely to be a compromise on Home Rule since all parties feel that domestic dimensions must be settled at all costs in the face of peril from without.

London, July 29.—The day's events brought no relief to the suspense nor any diplomatic achievement to place the Austro-Serbian war to rest. The feeling throughout England and the continent, as reflected by the correspondents of the London papers is tonight distinctly more anxious than yesterday.

Two events have made for pessimism. The direct negotiations between Russia and Austria, which gave the other governments hope of a compromise, have failed and ended. Russia is mobilizing against the Austrian frontier four army corps each of four divisions, consisting of 1,200,000 men. Russia's readiness to stand by Serbia appears to be fixed, and the Russian censor has approved despatches declaring that Russia is not taking up arms.

A manifesto by the Russian emperor making his policy known is expected hourly. The diplomatic world has justly despaired, they all say that there is still hope, and base their belief on the fact that Germany, France, Great Britain and Italy—the last two named most of all—do not want war, and do not think the Austro-Serbian quarrel important enough to justify it.

Berlin, July 29.—From the highest source it is learned here this evening that a break between Germany and Russia is impending. The impression is abroad that the Kaiser's negotiations with the czar have failed. The foreign office, over which an air of optimism has prevailed throughout the day, has taken on a serious aspect. Under secretaries and attachés are being held at their desks and all German officialdom is at work tonight.

The British cabinet frankly in official circles that a crisis has been reached and that the situation is becoming more desperate hourly. At 8 o'clock

tonight an unofficial statement was made to the correspondents at the foreign office in which they were advised against over-emphasizing the gravity of the situation.

While it was admitted that the possibilities of diplomacy had been virtually exhausted it was pointed out that Russia's final reply had not been received and that the possibility of a satisfactory adjustment still remained.

St. Petersburg, July 29.—In Russian eyes the die is cast. Only a political miracle can avert war. Russia does not sever from her determination to support Serbia and partial mobilization has already been ordered. There is every indication that the whole vast military machinery in Russia will be soon set in action.

An imperial manifesto is awaited tonight. Should Nicholas become generalissimo of the forces, a wave of enthusiasm will sweep over Russia.

The political parties have sunk their differences. The general attitude is not "Anglophile" but one of resolute confidence in the justice of the country's cause and readiness to make sacrifices. The proposal attributed to Austria to discuss terms when Belgrade has been occupied is pointed out that belated opening of hostilities Russia proposed to Austria a direct change of view which Austria rejected.

NEW INVENTION WILL
REDUCE TWINE PRICES
John Kennedy, a director of the Grain Growers' Grain company, of western Canada, in a recent interview told of a new invention which is to revolutionize the binder-leve trade.

The new invention, the patent for which is held by the Grain Growers' company, is a metallic clamp or fastener for binder twine, to do away with the necessity of knotting, and to be made of a cheap and strong material. This will result in the twine prices being cut in two.

All that is necessary is to remove the knot from the binder and to place the fastener on the machine. Then it will use the cheap fastener twice as fast as the knot. This is a great improvement. It has been demonstrated that it is made in western Canada, but is manufactured in Minnesota. Mr. Kennedy states.

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-lives" Healed His Kidneys and Cured Him

HAVERHILL, ONT., Aug. 26th, 1913. "About two years ago, I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-lives' advertised, I decided to try them. Their effect, I found more than satisfactory. Their action was mild and the result all that could be expected."

My kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today, I am enjoying the best health I have ever had."

"Fruit-a-lives" is the greatest Kidney Remedy in the world. It acts on the bowels and kidneys, as well as on the kidneys, and thereby soothes and cures any kidney soreness."

"Fruit-a-lives" is sold by all dealers at 50¢ a box, 6 for \$2.50, trial size 25¢ or will be sent on receipt of price by Fruit-a-lives Limited, Ottawa.

OUR EDMONTON LETTER

Edmonton, July 27.—Every street avenue and lane in the ten largest cities of the world could be paved with the asphalt now being exposed in the Fort McKay district," said J. P. Hughes, who returned to Edmonton this morning from a trip of 3,000 miles into the unsettled territory of the north. He was accompanied by three prospectors, who brought with them 40 bags of asphalt and mineral samples.

"During our 90 days' expedition," Hughes continued, "which took us into little traveled districts along the Athabasca and Peace rivers, we located deposits of asphalt containing sufficient raw material to pave every thoroughfare in the United States and Canada. We also found deposits of iron, salt and gypsum and traces of copper."

"Hundreds of American and Canadian farmers have settled in the Peace River country during the last few years," he said, "and judging by what they have already accomplished, it is reasonable to suppose that they will take full advantage of the rich undeveloped resources that abound in the hinterland of Alberta and British Columbia."

Edmonton, July 27.—Reports from 138 districts, compiled by the statistical department of the Dominion Industrial association, show that the grain crop throughout the province of Alberta will be fully 10 per cent larger than in 1913, while in Central and Northern Alberta there will be increases of from 18 to 25 per cent over last year. One and a half millions of acres of land is under actual crop this year, as compared with 1,127,000 acres in 1913. The largest increases in acreage are in the northern half of the province, which, together with advanced condition of the grain, is the best indication yet prevailing weather conditions. The farmers say, that this season's crop will set a new mark. Ranchers in the northern districts report large increases in live stock, saying also that many cattle are being brought into the country by homesteaders from the south.

Edmonton, July 27.—Six million dollars is the estimated cost of a hydro electric plant to be installed on the Saskatchewan river, 10 miles west of Edmonton, by Jackson & company, headed by Sir John Jackson of Glasgow, if the city of Edmonton will agree to a contract with a syndicate of Montreal and London capitalists to purchase power at a lower rate than it is now being manufactured by the city. The present cost is 12 cents per k.w.h. The plan contemplates the development of 40,000 horse power. Representatives of Jackson and Partners of New York submitted an offer to the municipality two weeks ago to install a plant costing \$3,500,000, to supply electricity to the city on a sliding scale, ranging from one cent to a half cent per k.w.h., according to the quantity used. Under this plan the minimum guarantee is 50,000,000 k.w.h. a year. The council will deal with these propositions within the next two or three weeks.

Edmonton, July 27.—Thirty tons of commercial mica, taken from the mica mountain claims, near Fete Jean on the main line of the Grand Trunk Pacific railway, west of Edmonton, is on the way to Montreal. The mica is of excellent quality. Samples from the vein now under development were first taken at Paris 1900, Glasgow 1902, and St. Louis 1904. The claims which were originally staked by J. M. Victor, a rancher of Kamloops, B.C., are being worked by W. W. Winter of Montreal, N.B. They are located about a thousand feet above the railroad grade. The mica men are at work developing the property.

Edmonton, July 27.—Residents of the south side of Edmonton have organized a development league, which J. M. Douglas, member of the Dominion parliament says will have not less than 5,000 members within thirty days. The south side, known as Strathcona before amalgamating with Edmonton in 1911, is preparing for an organized effort to secure more civic expenditures and additional public utilities. The amalgamation agreement calls for markets, street railway extensions, civic buildings, bridges and other public work. Another item of the league's program is to build up Whyte Avenue as a business centre.

CAMROSE

(From The Canadian)

The Grand Trunk are making extensive repairs on the roadbed north of the Battle River where a slide occurred a month ago.

The business men of Perinloch, 25 miles south of Camrose on the Grand Trunk, want an agent, and want him badly.

Six to ten cars of live stock pass through Camrose every Thursday on the G. T. P. for Edmonton packing plants. These shipments are from the farmers as far south as Mirror Lake.

The Rev. T. E. Knudson, of Edmonton, well known throughout the west, died at the Royal Alexandra Hospital on Monday morning.

A new Methodist circuit is being organized in this district, comprising Heatherton, Okanogan and Skaneateles, and New Salem church.

An interesting wedding took place at St. Saviour's church, Nason, B. C., on Saturday, July 11, the contracting parties being the Rev. Arthur Prescott Carter, eldest son of the late Rev. and Mrs. Carter, of Manchester, England, and Helen Jane Rowell, third daughter of Mr. and Mrs. F. W. Rowell, of Camrose.

A telegram was received this morning from G. P. Smith to the effect that he had been successful in disposing of the \$38,000 bond issue of the Town of Camrose. The wire does not state the exact net figure which the Town will receive, but it is understood that the price is very satisfactory.

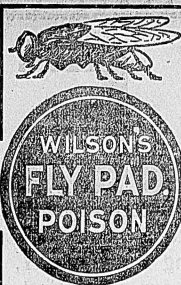

The transfer of the Camrose post office, about which so many rumors have been about the past month was finally made on Friday evening. H. Foucher, who is retired, has held the office continuously for the past nine years, ever since the town started. His successor, R. L. Tushnet, who commenced his duties Saturday morning, is also an old-timer, having resided here since the town was in its infancy.

HOW TO AVOID TUBERCULOSIS

The Alberta association for the prevention of tuberculosis sends out the following hints in regard to this dread disease. The Dominion government has donated 320 acres of land for the site of a sanatorium in Alberta and the association is asking the Alberta government to erect the building.

A healthy body is the best prevention against the tubercle bacillus, or any other disease breeding germ. Therefore, keep well by observing the following rules:

Live, work and sleep in rooms flooded with fresh air and purified by sunlight every day. See that your sleeping room is thoroughly ventilated.

There are many imitations of this best of all fly killers.

Ask for Wilson's, be sure you get them, and avoid disappointment.

For Sale Cheap

A good House and Lot on Minto St., Wetaskiwin, Alta. Price, \$1000.00. Half cash, balance on easy terms.

A good Farm in Lewisville district, S. W. 1-4, Sec. 35, T. 44, R. 23 west 4th M. Price, \$22.50 per acre. Terms: half-cash, balance on easy terms. Apply

LESSONS OF THE DEPRESSION

(By Professor W. W. Swanson in the Journal of Commerce, Montreal)
No Canadian who has any sense of ambition or pride in him, who is "worthy of his salt," to use the phrase of the man on the street, has not faith, even in the period of depression, in the wonderful possibilities of this vast continent which we call Canada. Yet it is well to bear in mind that we have also abundant resources of great magnitude to face, obstacles to overcome, which, in their vast extent reminds one of the vast untamable reaches of this northern land.

It should not be forgotten that as Canadians, we have defied nature and the laws of nature. Various publicists never grow tired of telling us that geographically and economically we are part of the United States, that for three thousand miles our frontier marches parallel with that of the republic, that the area of the land, and hence the scope of trade, is inviolably to the south and east, that a nation of one hundred millions with the same literature, language and laws as our own must inevitably draw Canada to it, as the magnet does the needle. Yet in despite of geography and the laws of nature, we have bridged a rocky, carry our railways over rocky, barren slopes and piercing over the majestic Rockies.

While every force of nature and every physical law seems to have conspired to keep the people of this country to make it a British land, we have met and overcome every obstacle whether of natural or man-made origin. On the northern half of this continent we have planted the British flag and have established a people, proud, independent and free with their own peculiar customs and with their own love of British freedom. That in itself is a work of which a nation with no history of its own behind its back might well be proud of; and yet in the incredibly short time of forty-seven years, a mere day in the march of time, we have built up a nation that already makes its voice heard in the councils of the world. Let us not forget, however, the part which Great Britain has played in this wonderful work.

We have received from the United Kingdom \$3,000,000,000, all of which has been invested in Canada, in factory or in works for the benefit of the people. That is truly a vast sum, and represents the faith of the motherland in her strong and vigorous dependency. Yet British capitalists hold 70 per cent of the securities which represent the capitalization of every kind of business and of every variety of government enterprise in this nation. Have not these people, therefore a right to know that Canadians are using this enormous reservoir of capital not only for the benefit of the country but in the interests of those who ran the risk when they advanced it and who had the courage and the patriotism to express their faith in this growing empire of the western world.

It is unfortunate that Canadians have not defaulted once in interest or principal upon any loan made to a Canadian municipality, town, to a province or to a federal government. Nevertheless, there seems in certain quarters to be a conspiracy of silence on the part of promoters, financiers and managers of business in general, as to the real state of business in the dominion. It goes without saying that we have overcome things in Canada in recent years. When a patient's temperature approaches 106 degrees his pulse beats with feverish activity and his face is flushed but it is not with the glow of health. The drop from 106 to zero is a drop which signifies nothing more than death. So it has been in Canada this last few years. There has been an artificial stimulation of business, prices of land, of commodities, of houses, of clothing—in fact of everything real to the people, advanced by loans and bounties. But in this state of affairs normal can't be lost. Our era of railway building has astonished the world but have we shown proper judgment in placing these lines? Will the use interest on the cost of construction be the main line of the C. P. R. through the Rockies and flowing southwards of the coast, correctly placed in the first instance? Have we shown sufficient foresight in discounting the future? We shall have to exercise greater discretion in our policies of national development than we have in the past. More than that the people of Canada must return to a common sense view of life and settle down to hard and constructive work, if the cost of living is to be reduced and the country to be what we have boasted that it is, a "land of the poor man's refuge" where labor receives its just and reasonable reward, and where democratic principles and ideas prevail.

THE WESTERN CROP SITUATION
It is very seldom that the reports of the grain crops in Manitoba, Saskatchewan and Alberta have been conflicting or varied as in the last week or two. An unusual time is it those who on account of failure in comparatively small parts will try to give the impression that the whole crop is a poor one, on the other hand many good authorities who usually take a moderate view of things assert that the yield is likely to be an average one, then again we have the "boosters" who practically every year claim that the crop is a bumper one, no matter what the situation may be.

The Commercial has come in contact with a large number of business men, grain dealers farmers and others recently and interviewed them as regards the crop; the conclusion we come to is that the great majority of districts in the three provinces will have a good average crop.

Suffered with Palpitation of the Heart and Nervous Trouble

Mrs. John Dennison, Cornerbrook, Ont., writes:—"I cannot praise Milburn's Heart and Nerve Pills too much. For years I suffered with palpitation of the heart and nervous trouble, so that I could not lie down to sleep. I tried almost all other medicines, and got no relief, until I was advised by a friend, who had been benefited by your pills, to try them, I did so, and after taking four boxes I found I was cured and am going to continue taking them, for I never got anything to do me much good. I would advise any one troubled with their heart or nerves to do the same as I am doing."

Milburn's Heart and Nerve Pills are 50 cents a box, or 3 boxes for \$1.25; at all dealers or mailed direct on receipt of price by
The T. Milburn Co., Limited,
Toronto, Ont.
FOR SALE BY H. L. HIGGS.

Some localities will have a bumper crop and there are quite a few sections in which the result is very disappointing on account of drought previous to the copious July rains. The rain came in time to be of great benefit to most of the country, but undoubtedly rather late in some places to overcome the damage previously done. Most of those interested in the situation throughout the country are confident that quite a satisfactory harvest will be reaped and that it will go a long way towards bringing business back to normal activity.

Already a few guesses have been made as to the probable production of wheat, and they range from one hundred and seventy million bushels to two hundred million bushels. The area, from all accounts, is larger than a year ago and growing conditions generally have been good enough to warrant the assurance that the result will be at least as satisfactory as in 1913. Any injury due to the grain in some localities generally has the effect of firming up prices on the grain of the whole country, so that from the standpoint of the average farmer and the business man the outlook would seem to be satisfactory either way, with the exception that it would be rather disappointing in the communities that experience a partial failure.

The Commercial has all sympathy for the people in the latter part of this country is so vast that the crops will never be uniformly good in all of it, and there will probably never be a season in which some of the farmers will not suffer. Unless something unforeseen happens, the best authorities are confident that the crop, on the whole, will be a good one this year.—Commercial.

PIGEON LAKE

Saturday, the 15th of July was a day that will live in the minds of the people of Pigeon Lake and vicinity for time to come. With the ideal sunny weather so natural to Alberta the day passed most pleasantly and the keepers of the booth were kept busy selling their wares. The sports were carried out under the management of Mr. Melvin and proved a huge success. The winners of the various events were as follows:

Girls' Shoe Race—Miss E. English Boat race—1st, Mr. Swanson, 2nd, P. Peterson.

Swimming race—1st, T. Steadman, 2nd, J. Ellis.

Log Rolling contest—1st A. Sjolund, 2nd, P. Peterson.

The tab race was postponed on account of the tube not being large enough to hold the weight of the occupants, upon going into them they would immediately sink. One of the prominent features of the day was the appearance of Messrs. Olin and Campbell on the same platform, who had been given to much vituperation, at election time, seemed quite happy and convivial in each other's company. There were about half a dozen photographers on the grounds who took pictures of the crowd in many different positions. The football game was an event of the day, and ended in the score of nothing for each side. The Hobbsman Indian team could not bring their full complement and won only two or three, then managing to come. With them and the two Pigeon Lake natives, Poole and Black, also seven white men, they managed to make up a team. The game was fairly fast and the score 0-0 well merited the run of the play. Black, the Indian "goalie," made a couple of good saves, then just on time, Steadman, the "Huronic" customer, was not kept very busy. After the game short speeches were made by Messrs. Poole, Olin and Campbell and then the dancers surrendered to Terschick at 11 midnight. Thus ended West Pigeon's gala day.

Lethbridge, Alta., July 24.—The conflict of the contest inquest on the victims of the Hillcrest mine disaster was that death was occasioned by an explosion caused by gas and dust. The jury added a rider that they believed the company had infringed the Mines Act. They further suggested that the government should enforce a monthly inspection of all men working in mines to see that no matches were carried; further that a sufficient number of life-saving apparatus be kept at or near the mouth of mines as possible.

Mrs. John Dennison, Cornerbrook, Ont., writes:—"I cannot praise Milburn's Heart and Nerve Pills too much. For years I suffered with palpitation of the heart and nervous trouble, so that I could not lie down to sleep. I tried almost all other medicines, and got no relief, until I was advised by a friend, who had been benefited by your pills, to try them, I did so, and after taking four boxes I found I was cured and am going to continue taking them, for I never got anything to do me much good. I would advise any one troubled with their heart or nerves to do the same as I am doing."

FATAL ACCIDENTS OCCUR AT CAMROSE

Camrose, July 28.—Oscar Jensen, aged thirteen, stepson of Carl Schie, a well-known farmer of Dohmed, was killed on Main Street here this morning by being thrown from the horse he was riding in the Windsor Hotel special pony race.

The accident was witnessed by a large number of people, the race being a down-town event of a big sports program being held here today. The unfortunate lad was killed instantly as he pitched head first on to the hard road, crushing his skull, the horse afterwards trotting away unhurt.

Joseph Valensky, a student whose home is at Saskatoon, was drowned in Mirror Lake, Camrose last Saturday afternoon while bathing. His heroic efforts were made by other 14-year-olds to save him, but in vain. His body was not recovered for an hour and a half, and although divers' efforts were made to resuscitate him they proved fruitless. His remains were sent to Saskatoon on Saturday night. Valensky, who was about 19 years old, was visiting a brother who has a clothing store here.

Auction Sale

STOCK, IMPLEMENTS, ETC.

The undersigned Auctioneer has received instructions to sell by Public Auction on the S.W. 34-40-29, W. 4 seven miles southeast of Wetaskiwin and five miles from Gwynne, on WEDNESDAY, AUGUST 5, 1914 At 1 o'clock sharp, the following:

HORSES—White mare, age 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

1 Milk Cow.

Office: Asp & Reliance's Store, Wetaskiwin

Get the Right Man

When you are thinking of getting some work done, you generally consider who is going to do the work.

You want a responsible man, of whom you will expect the best. This applies twofold in the Auctioneer business. In other work if an error has been made you can probably rectify it through re-modeling or tearing down and making the whole thing over again. In an Auction Sale after the goods are sold, you cannot do anything but grin and bear it if you engaged an Auctioneer that did not give you a square deal.

Abner A. Taje has gained the reputation of honest deals and square methods. Employ him and be assured of success.

The Sunkist Orange

With the Different Flavor

Ask for "Sunkist Valencia"

The Valencia Sunkist is the California Summer Orange—a sweet, juicy, luscious fruit, ripened on the tree.

Easy to peel, and practically seedless.

Some are dark in exterior appearance, some lighter in color. But all are a deep red inside and sparkling with healthful juice.

Oranges are picked in California every day in the year, and the Late Valencia is one of the very finest ever grown.

Glove-picked, tissue-wrapped, shipped right from the tree—you get it fresh with the real tree-ripened flavor.

Don't buy merely "oranges." Buy the

Calgary Oil Fields**Free Market Letter**

Commercial quantities of high grade oil in a proven field and tremendous development now under way, makes Calgary the next great fortune making centre. Bankers and business men from all quarters of the world are sending capital here to take advantage of the wonderful opportunities.

We are not promoters tied to one proposition and blinded by prejudices, but are free and independent to recommend or condemn the various stocks according to our best judgement.

Because of our large experience, and thorough knowledge of conditions, our recommendations are eagerly sought after. The oil barons of today are the early investors in new oil fields. The opportunity is here right now, during the development period, for both small and large investors.

Write to-day for map of the district and to get letters of introduction to the oil barons. HARLAN & CO., 1040 10th Building, Calgary, Alta.

V. O. FRENCH,

Editor and Proprietor

W. C. T. U.**ATHLETES AND INTemperance**

The following strong testimony to the necessity for total abstinence if success is to be achieved in the athletic or business world is furnished by Mr. R. L. Baker, well known in sporting circles in Australia. He says:

"For my own part, I have never, throughout all my years of strenuous athletic work, taken one single drop of alcoholic drink. It is a very remarkable thing that I don't care where you pick your man from, there is no one who is a champion athlete who was a drinker. Athletics call for everything that is in a man, and he is unable to give it unless he has been living a clean, healthy life. I know a few instances of men who are given to drink. I find that they are unable to present themselves in a physically perfect state, with the inevitable result that they are badly defeated."

The overwhelming factor which brings about the downfall of many young athletes is the apparent preference of good fellowship. While you meet heaps of people who want you to drink with them, but it really is the insouciant form of flattery. As soon as you try to be a good fellow with everyone, your career is very limited. The successful man in sport is the man who decides upon a right mode of living and abides by it.

IF YOU KNOW

If you know that your boy with eyes of blue, With mainly tread and heart so true, Should enter your bar-room bright, And stain his soul in one wild night, What would you do then, brother mine? What would you do?

If you know that your girl with silken hair, With winsome way and face so fair, By felon drink at last were seen To follow the steps of Magdalene, What would you do then, brother mine? What would you do?

If you know that your wife through weary years, Should drown her grief in bitter tears, Because her boy of tender care, Was lured to death by flatterer's share, What would you do then, brother mine? What would you do?

But you know that somebody's boy must lie Some evil wrong in tender arms, In drunken stupor and mad die, Somebody's wife must sob in tears, What will you do then, brother mine? What will you do? T. Alex. Cairns in 'The New Republic.'

CO-OPERATIVE EGG CIRCLES

"The Organization of Co-operative Egg Circles," is the title of a pamphlet No. 4, by W. A. Brown, B.S.A., of the poultry division of the live stock branch, Dominion department of agriculture. In introducing the subject, the writer defines a co-operative egg circle, states the need for organization, and the work that can be accomplished.

The benefits, methods and details of organization are exhaustively dealt with and directions for setting up and using egg testing a given.

The pamphlet, copies of which may be obtained upon application, from the publication branch, department of agriculture, Ottawa, is concluded with a proposed constitution and by-laws suitable for an Egg Circle.

Are Your Bowels Ever Constipated

If you wish to be well you must keep the bowels open. Any irregularity of the bowels is always dangerous, and should be attended to at once. If the bowels cease to work properly, all the other organs become deranged.

Milburn's Laxative Pills work on the bowels gently and naturally, and will cure the worst cases of Constipation. Mrs. A. Cunningham, Manchester, Ont., writes: "I have been troubled with constipation for over five years. I feel it my duty to let you know that your Milburn's Laxative Pills have cured me. I only used three pills and I can faithfully say that they have saved me from a large doctor bill."

Milburn's Laxative Pills are a wonderful remedy for all diseases or disorders of the liver or bowels. Price 25 cents per box or 50 cents for \$1.00, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

H. L. HIGGS, Druggist, Wetaskiwin.

BEWARE OF TYPHOID.

It is one of the anomalies of our boasted advanced civilization, that the glorious summer time, with its opportunities for healthful open air pleasures and enjoyment, should be a season when men and women and little children lay in store the seeds of disease and death. The great enemy of the summer time is typhoid fever. For the next three months, people would do well to be on their guard against this disease. August, September and October are the typhoid fever months of the year. It is not necessary that there should be a cholera warning. There need be no occasion for alarm if people will use simple precautions.

Typoid fever is a fifth broad disease. It depends for its propagation and perpetuation on filth. Every person who has typhoid fever has come into contact with typhoid infected excreta or filth. It may be in the water you drink, the milk that is served you. Food not infrequently becomes contaminated. Filth is a treacherous germ carrier. Most typhoid cases arise from something taken into the mouth, either in food or drink.

Not all persons that take in typhoid germs are stricken with the disease. The germ must be favorable soil for growth and multiplication. But the unquestioned fact remains that the summer time is typhoid time, and it behooves people to be on their guard. Typhoid fever can be prevented absolutely. This is a fact that cannot be too strongly emphasized. No person need be a victim of the disease. All that is necessary is that you be clean—clean about the person, clean about the house. In country places particular care should be taken to see that the family source of water supply is pure, that there is access to pure water, that outhouses and barnyards are not allowed to accumulate nastiness, that the house itself is kept free from flies. If there is any doubt about the purity of the water, boil it. With strict observance of these simple precautions immunity from typhoid may be said to be absolutely assured.

THE SOREHEAD

When Grouse goes home at close of day, from saving wood or shucking hay, he's in a frame of mind; he roasts the grub he has to do, he roasts the housewife, good and true, and says things most unkind. He roasts the grub he has to eat, he roasts the milk for being sweet, the slaw for being sour, and when the meal is done he sits in gloomy state and throws some dirt, and growls hour after hour. The children hush their laughter glad, for if they worry their father he knows where there's a club, the wife goes round with weary tread, and wishes she had never wed that sort of dismal dabb. A wiser man is Billie Brown, who, when the long day's work is done, goes home in cheery mood; he chortles and he cries, "Geese Whist! How good that nifty grub is," as he throws in the food. The children greet him with a yell; they love their daddy passing well, and he loves them some; his wife's been waiting for a while to give him welcome, and her smile is wider than the door. The humble house, where gladden dwells, where dainty eyes smile, a nod of laughter sends, is heaven, shimmered down, but home is like the other place is on disgruntled father's face; there hangs a chronic frown—Walt Mason.

LIVE STOCK DEMONSTRATION FOR EDMONTON EXHIBITION

Well bred steers cost no difference in raising than scrubs, the more in selling is worth noting.

This contention applied to all live stock is one of the ideas which the Edmonton Exhibition association is endeavoring to plant in the minds of all farmers and stockmen of Alberta.

The stock competitions at the exhibition show that its efforts are already showing good results, but there is still a wide field to cover.

To hit on the good work, the association has this year arranged to put on an entirely original event. This will take the form of a live stock demonstration, and will be put on in a large tent placed adjacent to the new stock pavilion. No visitor to the fair should fail to visit this tent.

The demonstration will be carried along simple and practical lines. Steers, such as would sell for the best price on the Edmonton market, placarded with age, weight, price per cwt., total value, will be exhibited in comparison with common steers placarded with the same information.

This system will be extended along the lines of sheep, pigs and poultry. The advantages of careful breeding and good feeding in producing stock commanding the highest market prices, will be explained by expert stockman supplied through the courtesy of W. J. Stevens, live stock commissioner for the province of Alberta.

The advisability of saving cows and calves to supply the demand for milk, will be shown also the advantages derived from dehorning steers.

Since fair, return, covering the entire week of the Exhibition, has been arranged on all railways.

MAYOR McNAMARA IMPORTS PURE BRED YORKSHIRE TO WETASKIWIN DISTRICT

Mr. W. J. McNamara, mayor of Edmonton, and former mayor of Wetaskiwin, paid a visit to this city on Saturday last, en route to his farm on the Battle River, twelve miles south-east of here.

He has just returned from the east, where he purchased the cream of the famous herd of pure bred Yorkshire pigs, owned by John Fetherstone & Sons, of Streetville, Ontario. For years these people have

bred the prize winning Yorkshire stock of Ontario. Already Riverside Farm, S. 24-45-23, W. 4th, has probably the largest stock of pure bred Yorkshire in Canada and the present splendid addition will make it the finest. The Wetaskiwin district is certainly to be congratulated in securing this valuable herd which will have an immediate effect on the whole stock of Yorkshires in this part of the country.

In order to accommodate this rapidly growing stock, the Riverside Farm Limited are erecting a large pig pen; its length will be over 100 feet and it will have a concrete floor and over twenty-five separate pens.

Mr. McNamara reports his farm as being in splendid condition, due to the good management and experience of Mr. W. J. Mulloy and Sons, who are partners in the Riverside Farm Limited, the lessees of the land.

NO HARVESTERS

FROM THE EAST

R. J. Daly, publicity commissioner for Alberta in Winnipeg, has received instructions from the department of agriculture to represent the province at the meeting of railway passenger agents called to discuss the distribution of harvest hands.

Charles S. Hotchkiss, chief publicity commissioner, stated that from previous indications, very few, if any outside harvesters would be required for this province. An effort will be made to secure road rates from the railways within the province, with a view to moving unemployed in the harvest fields, and enabling non-residents to assist in harvesting operations.

The oil excitement has quieted down, and it will take a push to revive it even in a slight way. Thousands of Californians who put their little all into the venture a month or two ago are now having the time of their life trying to unload their stock, but there is nothing doing. Oil shares are being sold by public auction in Calgary, and bidders are being disposed of for what they will bring. Reports from Calgary are to the effect that the oil excitement is proving a curse to the city. Landlords cannot collect their rents and storekeepers cannot collect their accounts, and much hardship is looked for next winter. So, unless you have money to spare, and more keep out of the oil business in Calgary.

Auction Sale

OF STOCK, IMPLEMENTS, ETC.
